

# Primary Care Niagara - Family Health Group Application Form

Due to a shortage of Family Physicians in the region we are accepting a limited number of patients into our Family Practice group. For continuity of care reasons, patients accepted into the Family Health Group will be expected to receive all their primary medical care at our clinic except the use of Emergency Room in the case of emergencies only. Patients will be seen here on a same day non-appointment basis. Our Flexible Access Care model will provide the same-day medical care you need at the time you need it. You will not be required to make an appointment and wait for days to see a Doctor. You will have 5 day a week, extended hour, walk-in access to our Family Health Group. If this is acceptable to you, please answer the questions below and you will be informed within two weeks if you will be able to join our Family Health Group.

Your name:

Today's Date:

Best telephone number and time to contact you:
